1 Introduction

1.1 *The MCDS Degree*

The Master of Computational Data Science (MCDS) degree is a professional Master of Science degree offered by the Language Technologies Institute (LTI), a department in the School of Computer Science at Carnegie Mellon University. The MCDS degree offers students with a Bachelor's degree the opportunity to improve their training with advanced study in Computer Science and Machine Learning. We cater to students with basic analytic skills and a strong aptitude for mathematics, programming, and logical reasoning. An undergraduate degree in Computer Science is not required. Most students will complete the program in three semesters; students switching into Computer Science from another field may require additional time to fill gaps in their undergraduate training.

The program is not based on a fixed set of courses. Instead, students construct their own course of study, in consultation with their advisors, within broad guidelines. The MCDS program is typically a 16-month program consisting of courses, seminars and a required Capstone Project. Thus, a student may choose an area in which to specialize (such as networking, machine learning, or algorithms) or choose not to specialize at all. While some MCDS graduates continue on to PhD programs in the LTI or other leading universities, most graduates go on to jobs in corporate research and development laboratories.

The program consists entirely of coursework and a Capstone Project, and no Master's Thesis is required. However, students with an interest in research have many opportunities to work with faculty on research problems. There is no Doctoral program in Computational Data Science. However, because of the highly selective nature of the MCDS program and quality of the MCDS curriculum, performing well in the program will give a boost to a PhD application. MS graduates are welcome to apply to CMU PhD programs, but will not receive preferential treatment.

There are significant differences between CMU's different departments and degree programs in philosophical approach, procedures, policies and regulations. Each department issues a handbook that informs graduate students of their program requirements and procedures and ensures that students have written access to the standard information outlined below. This handbook describes the policies, procedures, and requirements for the Master of Computational Data Science (MCDS) degree.

While this handbook is specific to your academic experience in the department, there are several other resources and offices graduate students are encouraged to consult during their tenure at Carnegie Mellon University. Information about *The Word, Carnegie Mellon University Student Handbook*, the Office of the Assistant Vice Provost for Graduate Education, the Office of the Dean of Student Affairs and others are included in Appendix A of this

handbook.

All policies not explicitly described in this document conform to School of Computer Science (SCS) policies and university policies described in *The Word, Carnegie Mellon University Student Handbook* and at the University Policies website.

1.2 MCDS Contact Information

The people responsible for administering the MCDS degree are:

Jennifer M Lucas, Academic Program Manager
Master of Computational Data Science Program
Language Technologies Institute
School of Computer Science
Carnegie Mellon University
Gates-Hillman Center 6713
5000 Forbes Avenue, Pittsburgh, PA 15213
Phone: (412) 268-9870
Fax: (412) 268-7287

Eric Nyberg, Director
Master of Computational Data Science Program
Language Technologies Institute
School of Computer Science
Carnegie Mellon University
Gates-Hillman Center 6715
5000 Forbes Avenue, Pittsburgh, PA 15213
Phone: (412) 268-7281
Fax: (412) 268-7287

Robert Frederking, Graduate Program Chair
Language Technologies Institute
School of Computer Science
Carnegie Mellon University
Gates-Hillman Center 6515
5000 Forbes Avenue, Pittsburgh, PA 15213
Phone: (412) 268-6656

Jaime Carbonell, Department Head
Language Technologies Institute
School of Computer Science
Carnegie Mellon University
Gates-Hillman Center 6721
5000 Forbes Avenue, Pittsburgh, PA 15213
Phone: (412) 268-7279

The Language Technologies Institute is located primarily on the 5th and 6th floors of the Gates Hillman Complex (GHC) on Carnegie Mellon's Pittsburgh campus:

Language Technologies Institute
Carnegie Mellon University
5000 Forbes Avenue
Gates Hillman Complex 5402, LTI
Pittsburgh, PA 15241-3891

412-268-6591 (phone)

412-268-6298 (fax)

<http://www.lti.cs.cmu.edu/>

1.3 University Policies and Expectations

It is the responsibility of each member of the Carnegie Mellon community to be familiar with university policies and guidelines. In addition to this departmental graduate student handbook, the following resources are available to assist you in understanding community expectations:

The Word/Student Handbook:	http://www.cmu.edu/student-affairs/theword/index.html
Academic Integrity Website:	http://www.cmu.edu/academic-integrity
University Policies Website:	http://www.cmu.edu/policies/
Graduate Education Website:	http://www.cmu.edu/graduate/policies/index.html

Please see Appendix A for additional information about university resources.

1.4 Carnegie Mellon University Statement of Assurance

Carnegie Mellon University does not discriminate in admission, employment, or administration of its programs or activities on the basis of race, color, national origin, sex, handicap or disability, age, sexual orientation, gender identity, religion, creed, ancestry, belief, veteran status, or genetic information. Furthermore, Carnegie Mellon University does not discriminate and is required not to discriminate in violation of federal, state, or local laws or executive orders. Direct inquiries concerning the application of and compliance with this statement to the Vice President for Campus Affairs, Carnegie Mellon University, 5000 Forbes Avenue, Pittsburgh, PA 15213; Telephone: 412-268-2056.

1.5 The Carnegie Mellon Code

Students at Carnegie Mellon are members of an academic community dedicated to the achievement of excellence, and are expected to meet the highest standards of personal, ethical and moral conduct. These standards require personal integrity, a commitment to honesty without compromise, as well as truth without equivocation and a willingness to place the good of the community above the good of the self. Obligations once undertaken must be met, commitments kept.

As members of the Carnegie Mellon community, individuals are expected to uphold the standards of the community in addition to holding others accountable for said standards. It is rare that the life of a student in an academic community can be so private that it will not affect the community as a whole or that the above standards do not apply. The discovery, advancement and communication of knowledge are not possible without a commitment to these standards. Creativity cannot exist without acknowledgment of the creativity of others. New knowledge cannot be developed without credit for prior knowledge. Without the ability to trust that these principles will be observed, an academic community cannot exist.

The commitment of its faculty, staff and students to these standards contributes to the high respect in which the Carnegie Mellon degree is held. Students must not destroy that respect by their failure to meet these standards. Students who cannot meet them should voluntarily withdraw from the university.

The Carnegie Mellon Code can also be found on-line at <http://www.cmu.edu/student-affairs/theword/code.html>.

2 The Language Technologies Institute

2.1 Main Office

The LTI reception desk is in Room 5407 of the Gates Hillman Complex (GHC 5407). Mailboxes, printers, copiers, and other departmental resources are across the hall, in GHC 5404.

2.2 Photocopies and Printers

The use of a photocopier requires an access code. An access code can be obtained from the LTI administrative staff. Do not share your access code with anyone outside of the department.

The use of a printer requires a CS user id (see the 'Computers' section). The School of Computer Science provides a number of black-and-white and color printers for use by students. SCS Computing Facilities maintains a list of printers at <http://www.cs.cmu.edu/~help/printing/>.

2.3 Office Space for MS Students

Full-time students in the LTI's MS degrees on the Pittsburgh campus have access to shared office spaces, which help to create a sense of community and provide space for working when on campus.

2.4 Computers for MS Students

Students are expected to provide their own laptop computers that can be used to access university resources and complete course assignments. Laptops running Windows, MacOS, and Linux software are all acceptable.

MS students will be given a CS user id. A CS user id is required to use the LTI computer cluster, department printers, and other SCS services. The School of Computer Science has a Help Center located at 4203 GHC. They can be contacted at help@cs.cmu.edu, extension 8-4231 from a campus phone, or 412-268-4231 from an outside line.

MS students will be given access to the LTI's computer cluster on an as-needed basis, to be used for course assignments, directed study projects, and/or the capstone project. The LTI cluster provides storage and computation for projects involving large datasets and/or lengthy computation.

3 MCDS Degree Attainment

This section describes the various rules and regulations that determine the attainment of a MCDS degree by the student.

3.1 Statute of limitations

<http://www.cmu.edu/policies/student-and-student-life/masters-students-statute-of-limitations.html>

As outlined in the Master's Students Statute of Limitations, students who have matriculated at Carnegie Mellon will complete all requirements for the master's degree within a maximum of seven years from original matriculation as a master's student. Once this time-to-degree limit has lapsed, the person may resume work towards a master's degree only if newly admitted to a currently offered master's degree program under criteria determined by that program.

Under extraordinary circumstances, such as leave of absence, military or public service, family or parental leave, or temporary disability, a school or college may, upon the Director's recommendation and with the written approval of the dean (or designate), defer the lapse for a period commensurate with the duration of that interruption. Students, who are pursuing a master's degree as part-time students for all semesters of their program, as approved by their program, may also appeal to the program Director for extension of the time to degree limit.

3.2 Full-time status and part-time status

In order to be considered a full-time student, a student must be registered for, and complete, a minimum of 36 units in every Fall and Spring semester. All international students are required by Federal Law to maintain full-time status. Failure to maintain full-time status will result in loss of a student visa (and, therefore, "permit of stay"). All students having a Stafford Loan are required to maintain full- or part-time status.

3.3 Degree Enrollment Process and Related Information

3.3.1 Duration of the degree program

The MCDS degree must be completed within five (5) years from the time that the student matriculates into the program.

3.3.2 Residency requirements

There is no formal residence requirement. However, most courses in the program are taught on campus without an option for distance education.

3.3.3 Course requirements and related policies/protocols

- In order to receive the degree, students must have a Quality Point Average (QPA) of 3.0. Completion of the degree is based on completing courses in the core curriculum, the MCDS seminar, electives and capstone project.
- The capstone project consists of students working at CMU on a research project, or on an industry-sponsored project.

- The student must complete 144 eligible units of study. This includes eight 12-unit courses, two 12-unit seminar courses and one 24-unit capstone course. Students must choose at minimum 5 core courses. The remainder of the 12-unit courses with course numbers 600 or greater can be electives chosen from the SCS course catalog. Any additional non-prerequisite units taken beyond the 144 units are also considered electives.
- A full-time student must take at least 36 units per semester. A student may not take more than 60 units per semester, without permission. Full-time students may elect, exactly once, to shift 12 units from the initial Fall semester to the subsequent Fall semester, although this shift will make the students in the systems major ineligible for the combined 7-month internship and capstone option.

3.3.4 Prerequisites

Over time we have discovered that many students are challenged in graduate level education due to a weakness in certain areas of undergraduate education. Thus, students are also required to pass the undergraduate course 15-513 Introduction to Computer Systems (6 units), typically in the summer before study commences. The student must pass with a grade of “B” or better. Failure to pass the course means that either the student takes 15-213 during the Fall or Spring semester. (This path means that the student is thus taking an even larger number of courses during the semester.) Note that in both cases the units do not count towards the 144 eligible units of study, since both courses 15-513 and 15-213 are undergraduate courses.

3.3.5 Plan of study

The degree consists of four timing options based on the length of time the student spends working on the degree. The student chooses their timing at the start of the degree program (for visa requirements). Changes in timing are possible with approval of the Director of the degree program and approval by the US government visa change. Note that all degree options consist of the same amount of coursework:

- Part-Time Timing – a degree of variable time, usually entailing several years, where a part-time student takes one or two courses per semester.
- Short Timing – a 12-month degree consisting of Fall, Spring, and Summer semesters of study. Each semester consists of a minimum of 48 units of study. This timing is available to students who have several previous internships. The student graduates in August.
- Medium Timing – a 16-month degree consisting of study for Fall and Spring semesters, a summer internship, and Fall semester of study. Each semester consists of a minimum of 48 units of study. This timing is typical for most students, and is the only timing that allows systems track students to do the combined 7-month internship and capstone option. The student graduates in December.
- Long Timing – a 20-month degree consisting of study for Fall and Spring semesters, a summer internship, and a second year of Fall and Spring study. Each semester consists of a minimum of 36 units of study. This timing is designed for students interested in extending their time at CMU to complete a course of study. Note that the per-semester course load is lower, but the total cost is higher since four semesters of tuition are paid. This timing is also recommended for students interested in pursuing a PhD after graduation. The student graduates in May.

3.3.6 Choice of Major

Each student is offered admission to a specific major course of study, which governs the composition of the core courses that they will take. The two major choices available are Systems or Analytics. Switching majors is possible with permission of the Director and Co-Directors of the relevant majors. Note that switching may delay graduation because of the requirement of taking core courses. For a student to petition for a change of major they must have completed 15-513 with a “B” grade or better, and be in good academic standing if they have already completed other courses in the program.

3.3.7 Systems curriculum

The Systems major consists of four components.

1. Core Curriculum (Pick 5 core courses with at least 3 project courses)
2. Seminar in Data Systems 15-649 Section A in Fall 1 and 15-649 Section B in Spring 1
3. Data Science Systems Capstone Course 15-649 (Section C, D or E) in Fall 2
4. Three (3) Electives: any graduate level course 600 and above in the School of Computer Science (SCS)

3.3.8 Analytics curriculum

The Analytics major consists of four components.

1. Core Curriculum (5 courses)
2. Data Science Seminar 11-631 in Fall 1 and Capstone Planning 11-634 in Spring 1
3. Data Science Analytics Capstone Course 11-632 in Fall 2
4. Three (3) Electives: any graduate level course 600 and above in the School of Computer Science

3.3.9 Capstone project

The capstone project consists of students working in a team or individually on a project. The capstone project integrates the educational experience of the student. A capstone project is typically a CMU research project, or an industry sponsored project; occasionally students define capstone topics through communication with the faculty. Students interested in defining their own capstone topics should discuss with the major advisor as early as possible. The capstone project is a great opportunity for a student (or student team) to “show off” their unique skills and accomplishments. Capstone projects have been instrumental in the hiring decisions for several employers.

If approved by industry employer and MCDS director, MCDS students can combine their capstone project with a 7-month (Summer/Fall) internship, provided all other degree requirements have been met.

3.3.10 Elective courses

Each major includes elective courses. Electives can be any graduate level course (numbered 600 or above) in the School of Computer Science. Students use their elective courses to enhance study in an area of interest or to explore new areas of interest.

3.3.11 Undergraduate courses

Undergraduate courses are taken to address an area of weakness in the student's prior preparation. Undergraduate courses (numbered less than or equal to 599) may be taken pass/fail or for credit, but do not count toward the 144 units of eligible study. The course and course grade *will* appear on the student's transcript, but the course grade *will not* factor as part of the student's QPA. Note that this rule applies to the prerequisite course 15-513.

3.3.12 Independent study course

Independent study courses allow students to cover study of a particular area of interest, and are used when there no formal course is available in a given subject area. Independent study courses are also used by students interested in continuing to a Ph.D. degree since they offer the opportunity to perform research directly with a faculty member. Independent study courses are considered electives.

Each independent study course must be advised and approved by at least one faculty member. Agreement to supervise an independent study course is purely voluntary on the part of the faculty member. It is the duty of the student, therefore, to negotiate the terms and conditions of the independent study with the pertinent faculty members of CMU who will be supervising the study. These individuals are referred to as "independent study supervisors." Once the student finds someone who agrees to supervise such a course, he/she must:

1. Enter into an agreement with the independent study supervisor that includes course expectations, including deliverables.
2. Secure the "Independent Study Contract Form" from the MCDS administrator.
3. Complete the form, giving brief description of the work to be done, including deliverables and how they will be graded.
4. Secure signatures of both the student and the supervisor. Return the form to the MCDS administrator in order to obtain approval for the independent study from the Director.

Independent study contracts must be submitted no later than 3 weeks following the start of classes.

3.3.13 Double counting courses

No course may be used to complete two MCDS degree requirements, nor may a course satisfy requirements in two degree programs.

3.3.14 Courses outside of the School of Computer Science

Elective courses in other Schools at Carnegie Mellon may be taken with prior permission of the Director.

3.3.15 Grades

All courses offered by the SCS CMU are graded on the 4.3 grading standard <http://www.cmu.edu/policies/documents/Grades.html>. MCDS students must maintain a 3.0 overall average each semester. A student must obtain a B- or better grade in all courses, which count towards core requirements. If a student receives a C- or better, that course may count as an elective towards the degree requirements. All courses must receive a letter grade; courses taken pass/fail do not count towards the MCDS degree.

Enrollment Services is the only University office that can provide an official letter of enrollment, official transcript and enrollment verification. Enrollment verification can be requested online through The HUB at: <http://www.cmu.edu/hub/transcripts/verifications/enrollment.html>.

3.3.16 Student review and academic probation

The MCDS program conducts an academic progress review at the conclusion of each semester in order to monitor individual student progress towards graduation. Should a student's effort fall below the acceptable level of academic performance and/or fail to meet standards established by Carnegie Mellon University, the student may be dismissed from the program.

Should a student's overall QPA drop below 3.0 during any given semester, he/she will be placed on departmental probation for the following semester and will be required to improve his/her grades to no less than an overall 3.0 QPA during that period. Failure to improve to an overall 3.0 QPA or better the following semester may result in termination from the program. In addition, should a student fail to meet University Policies established by Carnegie Mellon University, the student may be dismissed from the program.

After each academic progress review, a student may receive one or more letters indicating the result of the review. Warning letters are issued for the following cases:

- Overall QPA below 3.0 (Academic Probation)
- Semester QPA is below 3.0
- Grade below B- in a core course
- Academic Integrity Violation (AIV) (Defined later in this handbook)

A student may be terminated from the program for any of the following cases:

- If a student has received two Academic Integrity Violation (AIV) letters
- If a student has received three warning letters of any type from the MCDS program
- If the student has been found to infringe a University Policy, where such infringement is deemed terminable

Students who realize that one of these situations may apply to them are strongly encouraged to meet with the major advisor to discuss a plan to mitigate the situation. Students who find they are struggling in the program will have the best chances of success if they communicate early and often with the major advisor.

3.3.17 Incomplete grades

Carnegie Mellon University students are expected to complete a course during the academic semester in which the course was taken. However, if the instructor agrees, a grade of “I” (incomplete) may be given when a student has been unable to complete the work of a course. However, the work completed up to that date must be of passing quality and the grade of incomplete provides no undue advantage to that student over other students.

By awarding an “I” grade, an instructor must specify the requirements for the completion of the work and designate a default letter grade in the event that the student fails to complete the remaining work.

Students must complete the required course work by no later than the end of the following academic semester or sooner if required by the instructor.

The instructor must record the permanent course grade by the last day of the examination period of the following semester, or the Registrar will automatically assign the default grade.

If further work has not been completed after one semester and a default grade is rendered, the default grade will become the grade of record.

3.3.18 Change of grades and missing grades

If a grade has been assigned in error, it can be changed to a different permanent grade. The procedure for changing a grade is as follows:

- Discuss the matter with the course instructor; provide evidence that the grade issued was not the grade earned.
- If the instructor agrees, the student should contact the program administrator to process a Change of Grade Form in order to correct the grade that was issued in error. Generally, the instructor is the final authority for a course grade.
- If a grade has not been assigned, please notify the course instructor for the completion of a Missing Grade Form.

3.3.19 Qualifying examinations and procedures (or equivalent)

None required.

3.3.20 Thesis/dissertation

None required.

3.3.21 On transfer to another program

If the requirements for the MCDS degree have not been completed when a student leaves to pursue another academic program, the degree will not be awarded. Completion of the MCDS degree does not guarantee admission into any doctoral degree program at Carnegie Mellon University. The courses that will be completed as part of the MCDS may serve to enhance one’s application to these programs but will in no way insure admittance.

3.3.22 Intellectual property policy

The MCDS degree program adheres to Carnegie Mellon University policy on intellectual property: <http://www.cmu.edu/policies/documents/IntellProp.html>

3.3.23 Teaching requirements

None required. However, students are encouraged to apply for teaching assistant positions in courses where they have excelled.

3.3.24 Language proficiency requirements

None required. However, non-native English speakers are encouraged to take advantage of the various support functions provided by the Intercultural Communication Center (ICC) and the Global Communication Center (GCC).

3.3.25 Academic Integrity and Policies on Plagiarism and Cheating

Please review the University expectations at: <http://www.cmu.edu/academic-integrity/>

Please review the entire policy at:

<http://www.cmu.edu/policies/student-and-student-life/academic-integrity.html>

The university considers any form of cheating or plagiarism to be a serious violation of student ethics. The student is required to understand and rigorously follow only the permitted forms of collaboration as defined by the instructor in every class. The work you submit must be your own, unless you have clearly attributed it to others. You must not use the work of others without proper citation. And, you must not use resources, including other persons, except as authorized by the course or project for which you are submitting the work. Such conduct might be accepted or commonplace elsewhere, but it is not here. Be careful. Be warned. Failure to abide by these rules, even just once, can result in your permanent separation from the University without refund of monies paid. Note that the policy requires the student to be informed and understand the academic integrity rules for every assignment or exam in a course.

The MCDS program strives to produce graduates with the highest standards of academic integrity. Academic Integrity Violations are taken very seriously and the MCDS program has a zero tolerance policy for multiple Academic Integrity Violations; students who commit more than one academic integrity violation will be immediately dismissed from the program.

3.3.26 Teaching Assistants

The MCDS degree does not have a teaching requirement. However, some students may wish to be a teaching assistant. MCDS students may petition for approval to TA up to one course per semester provided that they are in good academic standing (Overall QPA 3.0 or above).

As required by the English Fluency in Higher Education Act of 1990, graduate students are required to have a certain level of fluency in English before they can instruct in Pennsylvania. Through this Act, all institutions of higher education in the state are required to evaluate and

certify the English fluency of all instructional personnel, including teaching assistants and interns.

The full university policy can be reviewed at: <http://www.cmu.edu/policies/faculty/evaluation-certification-english-fluency-instructors.html>.

In addition to administering the International Teaching Assistant (ITA) Test (a mandatory screening test for any non-native speaker of English may be required), the Intercultural Communication Center (ICC) helps teaching assistants who are non-native English speakers develop fluency and cultural understanding to teach successfully at Carnegie Mellon. Visit the ICC website for additional information: www.cmu.edu/icc.

3.3.27 Internship Requirement and Search for Full Time Employment

An internship is required for the degree program. In some cases, when a student has prior work experience, the Director of the degree program may waive this requirement. Students start searching for internships generally in the Fall and Spring semesters. Once the student returns from an internship in the Fall, they should immediately begin the search for full time employment. Extensive resources are available at <http://www.cmu.edu/career/> including a resume submission system, a list of employers, on campus interviews and mock interviews, and many other resources.

The Technical Opportunities Conference (TOC) <http://engineering.cmu.edu/companies/toc/> occurs every September. This conference is one of the main recruiting events each year.

All international students are required to apply for Curricular Practical Training (CPT). CPT is employment that is an integral part of an established curriculum and is directly related to the student's major area of study. Please visit the Office of International Education (OIE) link below to learn more about the CPT process: <http://www.cmu.edu/oie/forstu/jobs.html>

3.4 Enrollment Verification

<http://www.cmu.edu/hub/transcripts/verifications/enrollment.html>

Enrollment Services is the only University office that can provide an official letter of enrollment, official transcript and enrollment verification. Enrollment verification can be requested online through The HUB via the provided link.

3.5 Assistance for Individuals with Disabilities

The Office of Disability Resources at Carnegie Mellon University has a continued mission to provide physical and programmatic campus access to all events and information within the Carnegie Mellon community. We work to ensure that qualified individuals receive reasonable accommodations as guaranteed by the Americans with Disabilities Act (ADA) and Sections 503 and 504 of the Rehabilitation Act of 1973. Students who would like to receive accommodations must submit a [Voluntary Disclosure of Disability Form](#) to access@andrew.cmu.edu to begin the interactive accommodation process.

For more information please see <http://www.cmu.edu/hr/eos/disability/index.html>. Students with disabilities are encouraged to self-identify with Equal Opportunity Services by contacting Larry Powell, 412-268-2013, lpowell@andrew.cmu.edu to access the services available at the university and to initiate a request for accommodations.

3.6 University Policies on Grades and Grading

3.6.1 University Policy on Grades

<http://www.cmu.edu/policies/documents/Grades.html>

This policy offers details concerning university grading principles for students taking courses and covers the specifics of assigning and changing grades, grading options, drop/withdrawals and course repeats. It also defines the undergraduate and graduate grading standards.

3.6.2 University Policy on Grades for Transfer Courses

<http://www.cmu.edu/policies/documents/TransferCredit.html>

Carnegie Mellon University offers students the opportunity to take courses for credit through a cross-registration program (see Pittsburgh Council on Higher Education (PCHE) and Cross- registration below) and through the receipt of transfer credit from other accredited institutions.

The Carnegie Mellon University transcript will include information on such courses as follows: Carnegie Mellon courses and courses taken through the university's cross-registration program will have grades recorded on the transcript and be factored into the QPA. All other courses will be recorded on this transcript indicating where the course was taken, but without grade. Such courses will not be taken into account for academic actions, honors or QPA calculations. (Note: Suspended students may take courses elsewhere; however, they may receive transfer credit only if their college and department policies allow this.)

3.7 Academic Integrity

<http://www.cmu.edu/academic-integrity/>

In the midst of self-exploration, the high demands of a challenging academic environment can create situations where some students have difficulty exercising good judgment. Academic challenges can provide many opportunities for high standards to evolve if students actively reflect on these challenges and if the community supports discussions to aid in this process. It is the responsibility of the entire community to establish and maintain the integrity of our university.

Carnegie Mellon University educates its students to become professionals who will serve society with integrity. The university also creates and disseminates new knowledge and expressions of knowledge in ways that benefit society. Carnegie Mellon strives to serve the changing needs of society through the three primary goals outlined in its mission statement: to create and disseminate knowledge and art through research and artistic expression, teaching and learning and transfer to society, to serve students by teaching them leadership and problem-solving skills, and the values of quality, ethical behavior, responsibility to society and commitments to work, to

pursue the advantages provided by a diverse community, open to the exchange of ideas, where discovery and artistic creativity can flourish.

In any presentation, creative, artistic or research, it is the ethical responsibility of each student to identify the conceptual sources of the work submitted. Failure to do so is dishonest and is the basis for a charge of cheating or plagiarism, which is subject to disciplinary action.

The university has a very clear and specific protocol for responding to alleged violations of academic integrity. Carnegie Mellon's Academic Disciplinary Actions Overview for Graduate Students describes procedures and the appeal process for disciplinary actions against graduate students in cases of alleged academic integrity violation.

For more information please see: <http://www.cmu.edu/academic-integrity/documents/academic-disciplinary-actions-overview-for-graduate-students.2013.pdf>.

Important Note: The LTI implements the above policy's option of "conven[ing] a disciplinary hearing according to the procedures of the department/program". We have adopted a "two strikes" rule: while we may expel students upon a first violation, we **always** expel them for a second violation, with no exceptions.

4 Academic Policies

4.1 MCDS Academic Policies

4.1.1 Duration of Study

MCDS students enrolled for full-time studies are normally expected to complete the degree in three semesters (16 months). This includes a summer internship.

4.1.2 Double-Dipping

A Masters student who uses courses taken as part of another degree program (at Carnegie Mellon or elsewhere) toward their program requirements cannot use those same courses toward any other M.S. degree offered by the School of Computer Science without prior approval.

4.1.3 Pass/Fail Grades

Pass/fail grades are not permitted for courses used to satisfy a degree requirement. Graduate students who are required to take additional undergraduate courses to build up the core foundations of computer science may not elect the pass/fail option for these courses.

4.1.4 Transfer Credit

An equivalent graduate course previously completed at another institution may be permitted to satisfy one of the MCDS course requirements. The MCDS Program Director makes the decision on whether a course may be transferred. Typically the student will provide the Program Director with the syllabus of the external course, and the Program Director will use that and the student's transcript to make the decision.

See the section on “Definition of transfer credit versus course exemption”.

All MS students are required to take a minimum of 96 units of coursework at CMU.

4.1.5 External Internships and Job Interviewing

MCDS students are expected to attain an external internship during the summer. International students must coordinate carefully with the LTI, due to visa restrictions. International students must also have approval in advance from the Office of International Education (OIE).

We caution all students to be aware of potential intellectual property (IP) problems with internships, and to review any IP agreements with their advisors before signing them. It is possible to lose ownership of your ideas.

While it is necessary for students to travel off-campus for job interviews, it is not acceptable for a student to miss a course requirement or a capstone project commitment due to interview travel. Students should work proactively with prospective employers to arrange interview travel in a way that minimizes the impact on their final semester course work.

4.1.6 Transferring Into the MCDS Program

Direct transfers into the MCDS program are not permitted. Students who are currently enrolled at Carnegie Mellon who wish to transfer into the MCDS program must do so by applying to the MCDS program via the normal admissions process. As specified elsewhere in this document, some transfer credit and/or exemption from MCDS requirements may be possible on a case-by-case basis.

4.1.7 Transferring Out of the MCDS Program

The MCDS program does not prevent students from transferring to another degree program. Each degree program has its own rules about whether and when transfers into the program are permitted. A student that is interested in transferring out of the MCDS degree program should consult the handbook and Program Director of the desired degree program to learn whether transfers are permitted, and if so, how and when to request such a transfer.

4.1.8 Statute of Limitations

All units required for the Masters degree, whether earned in residence or transferred from another institution, must be recorded on the transcript within seven years of the date on which the student enrolled in the program (CMU policy¹), or less if required by a more restrictive department, school or college policy. The SCS Associate Dean for Graduate Education can extend this statutory period for special circumstances that do not make it possible for the student to complete the requirements within the statutory period. The SCS Associate Dean for Graduate Education must approve by the Department Head and any request for a waiver of the statute of limitations for the Masters degree. The waiver request must explain the exceptional circumstances that warrant an extension. For cases in which a waiver is granted, the waiver will cover specific courses and will specify a time period for completion of the program.

4.2 LTI Academic Policies

4.2.1 “Grandfather” policy

A student can graduate under the policies in effect at the time that the student entered the program; or, at the student's choice, the student can graduate under policies that are adopted after the student entered the program. In unusual cases, exceptions to program requirements may be approved by the Director.

4.2.2 Course Drop/Add procedures

Please consult the Official Academic Calendar for official add/drop dates at:

<http://www.cmu.edu/hub/calendar.html>

4.2.3 Courses with restricted enrollment

MCDS students have priority for the program core courses. The MCDS program administrators cannot intercede with other departments to secure seats for its students in other courses as all departments reserve seats for their accepted students. Usually all remaining open seats are assigned on a first-come, first-served basis. Students can, on occasion, contact the assigned course instructor in order to plead his/her case for admission to the course. Admission may be granted at the discretion of the instructor. The policy of the department offering the course(s) is always followed.

4.2.4 Definition of transfer credit versus course exemption

The LTI may grant transfer **credit** or issue an **exemption** for equivalent graduate courses previously completed at another institution. This decision rests with the chair of the particular program. If a student is **exempt** from a required course due to prior courses or experience, the student can replace that course with an open elective. The student does not receive credit for the external course, but can take any course that could normally count toward the degree in its place. If a student receives **credit** for prior coursework completed at CMU or elsewhere, the student receives that many units of credit, and the total amount of required coursework is reduced by that amount.

4.2.5 External Employment/Consulting

Since the MCDS program places heavy demands on student time, external employment and/or consulting are strongly discouraged. Exceptional students who wish to consult should discuss this with their Advisor. International students must also have approval in advance from the Office of International Education (OIE) for any outside employment.

4.2.6 Leave of Absence

The LTI discourages Leaves of Absence (LOA), since students usually do not return, despite good intentions. However, a student in good standing may be granted a LOA of at most 1 year, upon written request to the Program Director and with consent of the student's advisor. It is the responsibility of the student on LOA to contact the LTI to initiate a return to the program.

4.2.7 Satisfactory Progress

If a student does not make satisfactory progress each semester toward completing the degree, the LTI may remove the student from the program. See section on “End of Semester Evaluation”.

4.2.8 Winter and Summer Breaks

Students supported by research projects or working in an on-campus internship are expected to remain on campus working during breaks in classes. A two-week vacation is typically allowed in the summer. The normal winter break policy is that the student works 40 hours per week for two weeks, and takes vacation for the other two weeks.

4.3 CMU Academic Policies

4.3.1 Assistance for Individuals with Disabilities

The Office of Disability Resources at Carnegie Mellon University has a continued mission to provide physical and programmatic campus access to all events and information within the Carnegie Mellon community. We work to ensure that qualified individuals receive reasonable accommodations as guaranteed by the Americans with Disabilities Act (ADA) and Sections 503 and 504 of the Rehabilitation Act of 1973. Students who would like to receive accommodations must submit a [Voluntary Disclosure of Disability Form](#) to access@andrew.cmu.edu to begin the interactive accommodation process.

For more information please see <http://www.cmu.edu/hr/eos/disability/index.html>. Students with disabilities are encouraged to self-identify with Equal Opportunity Services by contacting Larry Powell, 412-268-2013, lpowell@andrew.cmu.edu to access the services available at the university and initiate a request for accommodations.

4.3.2 Summary of Graduate Student Appeal and Grievance Procedures

Graduate students will find the Summary of Graduate Student Appeal and Grievance Procedures on the Graduate Education Resource webpage. This document summarizes processes available to graduate students who seek review of academic and non-academic issues. Generally, graduate students are expected to seek informal resolution of all concerns within the applicable department, unit or program before invoking formal processes. When an informal resolution cannot be reached, however, a graduate student who seeks further review of the matter is to follow the formal procedures outlined here. These appeal and grievance procedures shall apply to students in all graduate programs of the University. Students should refer to the department specific information in this handbook for department and college information about the administration and academic policies of the program. Additionally, students may confer with the graduate student ombudsman, Suzie Laurich-McIntyre, slaurichmcintyre@cmu.edu, on issues of process or other concerns as they navigate conflicts.

4.3.3 Safeguarding Educational Equity: Sexual Harassment and Sexual Assault

Sexual harassment and sexual assault are prohibited by CMU, as is retaliation for having brought forward a concern or allegation in good faith. The policy can be viewed in its

entirety at: http://www.cmu.edu/policies/documents/SA_SH.htm. If you believe you have been the victim of sexual harassment or sexual assault, you are encouraged to make contact with any of the following resources:

- Sexual Harassment Advisors, found in appendix A of the Policy Against Sexual Harassment and Sexual Assault;
- Survivor Support Network, found in appendix B of the Policy Against Sexual Harassment and Sexual Assault;
- Sexual Harassment Process and Title IX Coordinators, found in section II of the Policy Against Sexual Harassment and Sexual Assault;
- University Police, 412-268-2323;
- University Health Services, 412-268-2157;
- Counseling & Psychological Services, 412-268-2922.

4.3.4 Maternity Accommodation Protocol

Students whose anticipated delivery date is during the course of the semester may consider taking time away from their coursework and/or research responsibilities. All female students who give birth to a child while engaged in coursework or research are eligible to take either a short-term absence or formal leave of absence. Students in course work should consider either working with their course instructor to receive incomplete grades, or elect to drop to part-time status or to take a semester leave of absence. Students engaged in research must work with their faculty to develop plans for the research for the time they are away.

Students are encouraged to consult with relevant university faculty and staff as soon as possible as they begin making plans regarding time away. Students must contact the Office of the Dean of Student Affairs to register for Maternity Accommodations. Students will complete an information form and meet with a member of the Dean's Office staff to determine resources and procedures appropriate for the individual student. Planning for the student's discussion with her academic contact(s) (advisor, associate dean, etc.) will be reviewed during this meeting.

5 Financial Issues

5.1 Tuition

5.1.1 Tuition payments

To understand your invoice, payment options, etc., visit: <http://www.cmu.edu/hub>. The MCDS program sets tuition each year for all students in the program. The student must handle tuition problems by contacting The Hub. The MCDS Program Administrators cannot solve tuition problems.

5.1.2 Sponsored Students

A sponsored student is one who has another party (such as an embassy or company) who has agreed to pay the student's tuition. Please read the "Sponsored Students" section.

5.1.3 Employer Reimbursement Process

If you have an employer reimbursement plan, write your employer's name and address on the bill (or provide CMU with a letter of support) and pay at least one-third of the tuition charge when returning the bill. You must pay previous semester balances before you can enroll for the next semester.

5.1.4 Carnegie Mellon employee reimbursement procedure

Contact the Benefits Office for specific information on tuition benefits. You must complete a Tuition Remission Form each semester in order to receive these benefits. To receive a Tuition Remission Form, visit the Human Resources website at: <http://www.cmu.edu/hr>.

5.1.5 Financial aid, tuition waivers, Scholarships

The MCDS degree program does not provide financial aid to graduate students, nor does it provide tuition waivers or scholarships. For complete financial aid information see: <http://www.cmu.edu/finaid/basics/graduate/>. The Financial Aid Office of Carnegie Mellon will provide assistance in completing the necessary paperwork to apply for Stafford loans.

5.1.6 External fellowships

The MCDS program will accept students with external fellowships.

5.1.7 Grade Reports

Grade reports are mailed to individual students by the university at the conclusion of each semester. See the official calendar for mailing dates.

5.1.8 Late Graduation

On occasion, a student and/or his/her employer may request that the student attend Carnegie Mellon for an additional semester in order to complete a program that will be beneficial to both the student and the employer. Under such circumstances late graduation can be arranged. Student is to discuss his/ her situation with the Director.

5.1.9 Deferment of start of program

An applicant who is admitted into the MCDS program is eligible to enter the program in the year of admission. If a deferment is requested and granted, the student is eligible to enter in the following year. Only one deferment will be granted to each student. If a student does not attend in the year following admission, the student must re-apply to the program.

5.2 Conference Travel Funding

Students funded by a research project may receive travel funding according to policies set by the individual projects. Students who have no project funding may be provided with partial funding, with a larger amount available for travel to present a refereed conference paper. There is an LTI form that must be filled out in advance.

5.3 Expenses

The program will reimburse any expenses incurred on behalf of the MCDS program if approved by the Director. Please receive approval *before* purchase. Verification of purchase and/or expenses along with receipts is to be presented to the program administrator for reimbursement.

5.3 Health insurance

<http://www.cmu.edu/policies/documents/StudentInsurance>

Carnegie Mellon has a Student Health Insurance policy requiring full-time, degree-seeking students to carry adequate medical insurance. Students must either purchase the plan offered by the University or an application for a waiver can be made if the student is “enrolled as the dependent, partner/spouse or principal in an employer or government-sponsored insurance plan”. It is the responsibility of each student to make arrangements with Student Health Services to either pay for their insurance at the beginning of the semester, or elect a payment plan over the course of the academic year. More information is available at the Student Health Services Web site www.studentaffairs.cmu.edu/HealthServices/insurance.

5.4 Emergency Loans

<http://www.cmu.edu/student-affairs/index.html>

All students regardless of their program are eligible for the Emergency Student Loan, which is an interest-free and emergency based loan repayable within 30 days. It is available through the Office of the Dean of Student Affairs; students may apply for the loan by stopping in to the Student Affairs Office, Warner Hall 301, or by calling (412) 268-2075 for an appointment.

6 Additional University Resources

6.1 The HUB Student Services Center

thehub@andrew.cmu.edu and <http://www.cmu.edu/hub/>

The HUB is located in Warner Hall, Lower Level. The HUB staff delivers comprehensive service and counsel to students and families regarding financial aid, billing and payment, registration and academic records. The Assistant Directors in The HUB serve as contacts for specific colleges and assist enrolled students with key aspects of the enrollment process. Student can find their assigned HUB Assistant Director on their Student Information Online (SIO) Resource page. Questions that need specialized, in-depth attention can be directed to the student's assigned Assistant Director. For general questions and information, students may email The HUB or call 412-268-8186.

6.2 Student Information Online (SIO)

Student Information Online (SIO) is a secure site where students can find important, personalized information, including E-Bills and student account information, financial aid status and eligibility, grades and QPA, and course schedules. Students can update their and their spouse's or domestic partner's contact information, sign up for E-Check & E-Refund, authorize their spouses, domestic partners or other individual to receive a copy of their E-Bill, request verifications, view their housing and meal plan assignments, and much more. Students can log on to SIO by going to www.cmu.edu/hub/sio and entering their Andrew User ID and password.

On SIO, students will designate an emergency contact address of a relative or family friend to be contacted in the case of an emergency. If students do not want their name and address published in the campus directory, they must notify the HUB in writing

6.3 ID Cards

Graduate students can obtain their ID card from The HUB once they have been entered into SIO for the semester. These cards identify their holders as members of the campus community. Student cards are deactivated upon the cardholder's separation from the university.

Affiliate ID Cards are available for spouses and partners of graduate students that allow them to access Carnegie Mellon's campus. These cards are available through The HUB to spouses and partners of graduate students who are enrolled for the current academic year in a full-time graduate degree program. The card is valid for one year. For information about domestic partner registration, visit the Office of the Dean of Student Affairs webpage: http://www.studentaffairs.cmu.edu/dean/domestic_partner/.

For more information about student and affiliate ID cards (spouse, domestic partners and dependent children), please visit: <http://www.cmu.edu/idplus/idcards/cardtypes.html>.

6.4 Transcripts

Information about and instructions for ordering transcripts are available at: www.cmu.edu/hub/transcripts.html. Transcript questions may be directed to esg-transcripts@andrew.cmu.edu.

6.5 Pittsburgh Council on Higher Education (PCHE) and Cross-registration

<http://www.cmu.edu/policies/documents/CrossRegister.html>

Cross-registration provides an opportunity for enriched educational programs by permitting full-time graduate students to cross-register for courses (usually no more than one per semester) at Pittsburgh Council on Higher Education (PCHE) Institution. Full-time Carnegie Mellon degree students are eligible and the PCHE course may not count towards full-time status unless the student is enrolled in an inter-university program. Students interested in taking advantage of this opportunity should be familiar with the Policy on Grades for Transfer Courses already outlined previously in this handbook. Department specific information about graduate students' ability to cross register and transfer grades should be included here.

6.6 Student Privacy Rights and FERPA

<http://www.cmu.edu/policies/documents/StPrivacy.html>

This university policy notifies students of their rights under the federal Family Educational Rights and Privacy Act (FERPA). According to FERPA, students have the right to:

- Inspect and review their education records;
- Request an amendment to their education record if they believe they are inaccurate or misleading;
- Request a hearing if their request for an amendment is not resolved to their satisfaction;
- Consent to disclosure of personally identifiable information from their education records, except to the extent that FERPA authorizes disclosure without consent;
- File a complaint with the U.S. Department of Education Family Policy Compliance Office if they believe their rights under FERPA have been violated.

For questions about Student Privacy Rights, FERPA or filing a complaint, contact John Papinchak, University Registrar, jp7p@andrew.cmu.edu, in Enrollment Services.

6.7 Academic Calendar

The official academic calendar is published by Enrollment Services. It is not uncommon for departments and colleges to have academic requirements that differ from or are in addition to those presented in the academic calendar provided to the campus community by Enrollment Services: www.cmu.edu/hub/calendar.html.

6.8 Professional Development

<http://www.studentaffairs.cmu.edu/career/index.html>

The Career and Professional Development Center (CPDC) at Carnegie Mellon is a centralized career center staffed by a team of seasoned and highly educated professionals who orchestrate the career exploration, experiential learning, and career networking needs of students and alumni.

CMU's career and professional development model is grounded in discipline-specific career development, experiential learning, and employer relations shaped by strong connections with the university's seven academic colleges. The center's success is founded upon a solid understanding of career and professional development theory, integration of technology, and an unwavering commitment to providing personalized attention towards meeting the unique individual needs of students, alumni, and employers. The CDPC is located on the Lower Level of the University Center, 412-268-2064

The Office of the Assistant Vice Provost for Graduate Education (AVPGE) offers a robust schedule of professional development opportunities. Some are geared towards a specific population (master's students, PhD students at the beginning of their program,

graduate students seeking tenure track positions, etc.) and others are open to all graduate students (time management, balancing, staying healthy). A full schedule of programs can be found at: <http://www.cmu.edu/graduate/>.

6.9 University Libraries

<http://search.library.cmu.edu>

There are three main libraries at Carnegie Mellon: Hunt Library, Mellon Institute Library and Engineering & Science Library with the combined mission of providing access and help to graduate students in finding the information needed, teaching graduate students to evaluate available information and use reliable sources. The libraries' digital resources and services, including off-campus/ wireless access to databases and e-journals, offer online access. There are also two neighboring libraries open to Carnegie Mellon graduate students: Carnegie Library of Pittsburgh and University of Pittsburgh Libraries. Visit the University Libraries website for information about all mentioned library locations and hours, on-line resources and FAQ's.

6.10 Computing Services

<http://www.cmu.edu/computing/>

Computing Services is located in Cyert Hall 285. Computing Services develops, maintains and supports the computing infrastructure for Carnegie Mellon students, faculty members and staff members. This includes the campus wired and wireless networks, public computer labs or "clusters," cable television and telephone services, computing related documentation and support through the Help Center. In addition, Computing Services provides standard classroom technologies for over 100 lecture halls, classrooms and seminar rooms across campus. The website contains addition information regarding The Help Center hours, location and contact information, computing cluster hours and location, the Carnegie Mellon web portal, computing security and policies and guidelines. Students can email the Help Center at advisor@andrew.cmu.edu with questions and for assistance.

6.11 Family and Dependents Resources

<http://www.cmu.edu/stugov/gsa/resources/family.html>

The Graduate Student Assembly website maintains a resource page for spouses, domestic partners and families of graduate students, including The Student Parent Association, new mother rooms, and links to resources around campus and the Pittsburgh area.

Affiliate ID Cards are available for spouses and domestic partners of graduate students that allow them to access Carnegie Mellon's campus. These cards are available through The HUB to spouses and partners of graduate students who are enrolled for the current academic year in a full-time graduate degree program. The card is valid for one year.

For more information about student and affiliate ID cards, please visit: <http://www.cmu.edu/idplus/idcards/cardtypes.html>.

6.12 Domestic Partner Registration

http://www.studentaffairs.cmu.edu/dean/domestic_partner/index.html

Carnegie Mellon extends certain benefits to domestic partners of students. Eligible students may elect benefits for their domestic partners through the registration process orchestrated by the Office of the Dean of Student Affairs, located on the 3rd floor of Warner Hall. See the web site for information regarding the benefits available for domestic partners, eligibility for domestic partner benefits, registration instructions and forms.

6.13 Housing

www.cmu.edu/housing/community-housing/index.html

The University does not currently offer housing to graduate students. The Office of Housing and Dining Services does provide community housing information to assist graduate students who are seeking housing in the communities surrounding the university, including information on the legal aspects of renting an apartment, moving checklists and the off-campus housing database.

6.14 Dining

<http://www.cmu.edu/dining/>

Dining services and operations are offered through the Office of Housing and Dining Services. The office operates dining locations open around campus in academic buildings, Hunt Library and the University Center. These locations offer flexible hours with options from the early morning through late night. The Dining Service website contains information about dining locations, hours of operation, graduate student dining plans forms, nutritional information, and weekly menus for dining locations.

6.15 Parking and Transportation

<http://www.cmu.edu/parking/>

Graduate students will find information about parking and availability, parking policies, transportation options and Port Authority Transit usage with a valid university ID on the Parking and Transportation Services site. The Parking and Transportation Services office is located in the lower level of the University Center, LL#8. There is limited parking on campus and the varying permit rates can be found on the website. All parking areas of campus are either by permit, metered or by the hour in the garage. Parking and Transportation Services will ticket any car parked in a permit area without a permit or at an expired meter. The city monitors the metered parking along Margaret Morrison, Frew and Tech Streets and will ticket at expired meters as well.

The University offers shuttle and escort services operated through University Police. The Shuttle Service operates several routes within Oakland, Squirrel Hill and Shadyside areas, as well as to University sites located outside of the main campus. The Escort Service offers vehicle routes within a radius of campus between 6:30 pm-6 am daily. Information regarding up-to-date shuttle and escort schedules, pick-up/drop-off locations, routes and usage policies can be found at: www.cmu.edu/police/shuttleandescort/.

SafeWalk provides another option to campus community members walking across and around campus during late-night hours. SafeWalk is a student volunteer organization that provides campus escorts for all members of the Carnegie Mellon community. SafeWalk

operates nightly during the regular academic year (except certain holidays and break periods) from 10pm until 2am. Students, faculty and staff may request an escort by calling 412-268-SAFE (8-7233 from a campus phone), by approaching an escort team, or by stopping by the SafeWalk dispatch area in the University Center, Lower Level near the Post Office Package Pick-Up window between 10pm-2am. SafeWalk will escort to locations approximately one mile from campus. Additional SafeWalk information can be found at: www.studentaffairs.cmu.edu/safewalk.

6.16 Copying, Printing and Mailing Services

http://www.cmu.edu/student-affairs/theword/campus_resources/copyprintmail.html

Carnegie Mellon offers community members easy access to FedEx, copy centers, printing and mailing services, and postal services. More information regarding these services, locations and contact information can be found at the provided link.

6.17 University Center

<http://www.cmu.edu/university-center>

The University Center is a centerpiece of the campus that provides a space for special events, physical fitness, student organizations and various activities, as well as accommodating retail and dining services. As the campus crossroads, the University Center functions as a place for students to interact, get involved and enjoy new experiences. Visit the University Center website for information about campus eateries, ATMs and PNC Bank, fitness rooms and schedules, retail stores, scheduling University Center space, the public prayer room, student organizations and the Wright-Royal Chapel.

The University Center Information Desk is the location if you want to know about upcoming campus events or have questions about Carnegie Mellon in general, call the Information Desk at 412-268-2107. The Information Desk not only provides information about campus events, but also sells postage stamps, makes copies, sends faxes, distributes campus maps, manages a lost & found, and has information brochures about Pittsburgh and the campus.

6.18 Athletic/Fitness Facilities

<http://www.cmu.edu/athletics>

For the participant or the spectator, Carnegie Mellon offers intercollegiate athletics, intramural sports, physical education classes and club sports. The Athletics Department also offers aerobics classes in the University Center and Skibo Gym as well as occasional workshops and instruction related to fitness and health. The Athletics Office is located in the Skibo Gymnasium.

Skibo Gym facilities include courts for basketball, volleyball, badminton, as well as weight-training and aerobic equipment. The University Center's recreational facilities include an eight-lane pool, racquetball and squash courts, aerobics room, fitness center and gym for basketball and volleyball. All users must present a current Carnegie Mellon Card to use these facilities.

6.19 CMU Alert

<http://www.cmu.edu/alert>

CMU Alert sends voice and/or text messages to registered phones in the event of a campus emergency that threatens public safety or during tests of the system in the Spring and Fall semesters. Students can register for CMU Alert through the web site.

6.20 Accidents on CMU property

Please report all accidents to Jim Skees (skees@cs.cmu.edu) and the MCDS program administrator. You will be asked to complete an accident report. By reporting accidents, the student helps minimize future harm! Serious accidents and accidents taking place elsewhere on campus should be reported to Campus Police, x8-6232 (non-emergency), x8-2323 (emergency).

A. Highlighted University Resources for Graduate Students

A.1 Key Offices for Graduate Student Support

A.1.1 Office of the Assistant Vice Provost for Graduate Education

Web: <http://www.cmu.edu/graduate> Email: grad-ed@cmu.edu

The Office of the Assistant Vice Provost for Graduate Education, AVPGE, directed by Suzie Laurich-McIntyre, Assistant Vice Provost for Graduate Education, provides central support for graduate students in a number of roles. These include: being an ombudsperson and resource person for graduate students as an informal advisor; resolving formal and informal graduate student appeals; informing and assisting in forming policy and procedures relevant to graduate students; and working with departments on issues related to graduate students and implementation of programs in support of graduate student development.

The Office of the AVPGE often partners with the division of Student Affairs to assist graduate students with their Carnegie Mellon experience. Senior members of the student affairs staff are assigned to each college (college liaisons) and are often consulted by the Assistant Vice Provost for Graduate Education and departments on an individual basis to respond to student needs.

The Office of the Assistant Vice Provost for Graduate Education (AVPGE) offers a robust schedule of professional development opportunities. Some are geared towards a specific population (master's students, PhD students at the beginning of their program, graduate students seeking tenure track positions, etc.) and others are open to all graduate students (time management, balancing, staying healthy). A full schedule of programs can be found at: <http://www.cmu.edu/graduate/>.

The Office of the AVPGE also coordinates several funding programs, seminars and workshops that advise, empower and help retain all graduate students, particularly graduate students of color and women in the science and technical fields. The fundamental goals of our programs have been constant: first, to support, advise and guide individual graduate students as they work to complete their degrees; second, to contribute to the greatest degree possible to the diversification of the academy. Visit the Graduate Education website for information about:

- Conference Funding Grants
- Graduate Small Project Help (GuSH) Research Funding
- Graduate Student Professional Development: seminars, workshops and resources
